Chorus

Em Bm C G
There is healing that flows from the heart of God
Em Bm C G
And there are rivers of love that flow from the cross

He has taken our sickness, our heartache and pain
Em Bm C G
And He died, He died to make us whole again

C D Em C D G
You say I'm healed by Your wounds; You say so confidently
C D Em C D G
How do I feel so defeated when You have claimed victory?

C D Em C D G
Could it be it's not You at all; Could it be that it's me
C D Em C D G
This pride's become an infection; it's time to jump in the stream
